AgilePM® Foundation

AgilePM® Foundation training introduces participants to one of the most effective methodologies for agile project management. It provides a thorough introduction to the knowledge, techniques and tools of Agile Project Management methodology.

The training consists of a theoretical part, workshops and sample tests. During the training, participants will thoroughly prepare to pass the AgilePM® Foundation exam, which takes place at the end of the second day of training. After passing the test, participants receive an AgilePM® Foundation certificate, which is a confirmation of agile project management skills.

PMI Talent Triangle
