

AgilePM® Practitioner

AgilePM® Practitioner training focuses on deepening knowledge of the Agile Project Management® methodology. Participants will learn guidelines, supported by sample scenarios, which they will be able to apply effectively in their own projects.

The training consists of content, workshops and mock tests that give participants a chance to thoroughly prepare to pass the AgilePM® Practitioner exam. Upon passing the test, participants will receive an AgilePM® Practitioner certificate to increase competitiveness in the job market and prepare them to manage projects in a dynamic environment.
