

Project Program Management

Practical workshop dedicated to professionals leading multidimensional business initiatives. The training is addressed both to experienced project managers and managers responsible for complex investments.

Participants learn recommended best practices dedicated to managing benefits and program components to maximize the business value of the organization. They have a chance to familiarize themselves with the key elements of The Standard for Program Management published by the Project Management Institute (PMI®). Theoretical issues are illustrated with examples of real-life programs. Together with the participants, we also discuss possible practical application in their organization's environment.

PMI Talent Triangle

Duration: 2 days
= 16 h
